1. Contains inmates released throughout the FY and those on-hand at year's end.

NOTE: Many inmates have multiple sentences, but only one sentence will be the controlling sentence. In showing one offense per inmate, the number of offenses is distorted. Yet if an inmate is counted for each offense, the number of inmates is distorted. This table attempts to quantify both the number of inmates and the number of offenses.

The Average Sentence Length per Offense is a bonus derived from the attempt to quantify this information.
